LEGISLATIVE UPDATES:

Our neighbour Doug Shipley, Member of Parliament for Barrie-Springwater-Oro-Medonte, recently introduced legislation to lower the costs of Automated External Defibrillators (AEDs) by proposing to remove the GST on these devices. This will help more organizations afford these life saving devices.

According to the Heart and Stroke Foundation of Canada, a person suffering from cardiac arrest is two times more likely to survive if both CPR & AED are administered. Having AEDs readily available wherever possible will save lives.

I hope Doug's bill will receive all party support so that it can become law.

As a reminder, the federal boundaries of Simcoe North have changed such that all residents living in Oro-Medonte will now vote in Barrie-Springwater-Oro-Medonte in the next federal election in October 2025 (or sooner).
